TRADE STATISTICS.

A month ago we called attention to the very grave error of several leading colleagues, who based their economical opinions on the returns of the Buenos Aires Custom House. These returns shewed an apparent balance of over £1,000,000 in favor of imports over exports. Logical deductions were made that the country was consuming more than it produced, that gold was going out of the Republic and that a crisis was impending. Our colleagues glanced back to 1873, and in the retrospect of financial annals eloquently pointed to the great analogy of the actual situation compared with the state of affairs that preceded the last, never-to-be-forgotten crisis. These symptoms were carefully recapitulated and condensed into a land fever, that paid for lands much more than they were worth, into heavy discounts made to every applicant at the Provincial and National Banks, and into a sluggish state of affairs, occasioned by a snag-up of wool in the markets and of imports in the deposits. All the papers in town took up the topic and ground it down, until it became threadbare and the public was worn out with the hazy prospects that threatened broad ruin to all.

This paper alone pointed to the fallacy of the arguments published, since all deductions were drawn from an erroneous basis of calculation. People are too apt to judge everything in the country from the condition of affairs in this city. All disregard the immense importance of the Interior and the steady advance of trade up the rivers. Lamport and Holt's and the Chargeurs Réunis steamers are turning the current of trade up the rivers. Thousands of bales of wool and thousands of tons of cereals are being shipped in the ports of Parana. The country is growing and Buenos Aires is becoming too small for the trade of the country. Before another lustrum elapses, Bahia Blanca will absorb all the trade of the South of this Province and the commercial activity of the Republic will suffer another subdivision.

It will interest our readers to know that the total trade of this country during 1882 amounted to no less than $135,000,000, or $17,000,000 more than in 1881.

The following comparative tables will silence many financial wiseacres:—

Exports.

	$ fts.
1881	56,000,000
1882	58,700,000
Increase	2,700,000

Imports.

	$ fts.
1881	54,000,000
1882	59,200,000
Increase	5,200,000

Transit Trade.

	$ fts.
1881	5,300,000
1882	17,000,000
Increase	11,700,000

The above figures need no comment; they are the most eloquent proof of the advance of the country. Imports, exports and transit trade have increased in a gigantic ratio. Our exports show an increase of £500,000 sterling, whilst the great advance of imports must be attributed to the heavy influx of railway materials from Great Britain for the 3,000 kilometres of railways at present in course of construction in the country.

Comparing the imports and exports of 1882, we have—

	$ fts.
Imports	59,200,000
Exports	58,700,000
Balance	500,000

Thus the balance of trade against the country merely amounts to $500,000, in spite of the gigantic orders for railway materials in Europe.

Thus the $7,000,000 balance of trade against the country, so much commented on by the press of this city, vanishes into air in the light of these official figures, which are under the mark since the statistical office of the Nation has not received the figures of several small custom-houses on the frontier of Bolivia and Brazil. It is interesting to note the volume of trade in Buenos Aires compared with the remainder of the Republic; in former years Buenos Aires was the recipient of the entire volume. Thus excluding transit trade, which amounts to 17,000,000 and is mainly effected up-rivers, we see that the total trade of 1882 amounting to 118,000,000, is thus divided:—

Imports

Buenos Aires	$47,800,000
Various	11,400,000
Total	$59,200,000

Exports

Buenos Aires	$41,000,000
Various	17,700,000
Total	$58,700,000

Total trade

Buenos Aires	$88,800,000
Various	29,200,000
Total	$118,000,000

If we add the transit trade of the country to the returns of the various Custom Houses to the exclusion of Buenos Aires the figures of "various" are swelled to $46,000,000. The foregoing figures are the most eloquent refutation of all the alarming articles about the approach of a crisis published last month; they will interest readers abroad as well as at home. They may be considered at present the barometer of the country's advance, although they will cease to be so before many years. The producing powers of the country are coming to the front and industries are following in the wake. Before many years the figures of imports will bear no longer the present relative proportion to exports, as the sugar factories of Tucuman, and the vine-yards of San Juan, Rioja and Mendoza will greatly reduce the imports of sugar and wine; the same fate will befal many other articles. Up to the present imports and exports are pretty well balanced and will no doubt continue so for some years to come.

MURDER OF MR. C. WOODGATE.

SAD DETAILS.

The gentleman who has met such a cruel fate, brother of Messrs. Frederick and William Woodgate, was second Administrator of the Ostrich Farm at Merlo, a post which he assumed in November last, and his pleasant manners and amiable disposition made him a general favourite; he devoted all his time and attention to his duties, and rarely left the farm.

On Sunday evening, however, he rode over to the station to have a moment's conversation with an old friend who was returning to Bragado from B. Aires by the train which passes Merlo at 6.50 p.m. He saw his friend in the train, had a few minutes' chat with him, and started on his return to the farm about 7 o'clock. The distance is about three miles. About 7½ p.m., one of the workmen saw Mr. Woodgate's horse gallop in riderless, and knowing that an accident must have happened, he at once informed Mr. Beaumont, the Manager, and Mr. William Woodgate, who happened to be at the farm. Both gentlemen fancied that the horse had simply escaped and run away home, a not uncommon occurrence in the camp, so they ordered the man to saddle another horse and take it to the station for the second manager. The man rode off with the led horse, but had not gone more than 100 yards from the farm when he saw a man lying in the road. To jump from his horse and recognize the dead body of his master was the work of a moment, and then he ran back to the house and gave the alarm. All the inmates rushed at once to the fatal spot. There lay the ill-fated gentleman in a pool of blood, shot clean through the head, the wound being just over the left eye. The body was still warm as they carried it back to the house, but there was no hope. Mr. Woodgate was dead!

When the first shock of the tragedy was over Mr. William Woodgate took instant steps to trace his brother's slayer. A mounted messenger dashed off to Merlo to inform the Police Commissary, Sr. Canaveri, a very experienced and energetic officer, who took his measures the moment he reached the farm and had viewed the corpse. His suspicions were first directed to a man named Rosario Figueroa, a Cordovese peasant who lived in the neighbourhood, and had formerly occupied the murdered gentleman's post as second manager, but was dismissed, owing to his doubtful conduct; but Mr. Beaumont made no charge against him when sending him away, simply telling him that his services were no longer required.

Before his dismissal this fellow had an altercation with the gentleman he is now charged with having murdered, and he subsequently made no secret of his ill-will towards him. With this clue the Commissary set to work and, about midnight, Figueroa was arrested and lodged in the police office. His hut was then searched, and, under the pillow of his bed, an English revolver, which Mr. Beaumont had made him a present of a year ago, was found. None of the barrels were loaded, but there was a smell of recently discharged powder in one of them. Every one present, including the Justice of Peace, smelt the barrel and coincided in the opinion that a shot had been recently fired from it.

Figueroa denies the crime emphatically, but there is another strong piece of circumstantial evidence against him. He was in a tavern in the town of Merlo on Sunday, and started for home along the same road as his supposed victim, about a quarter of an hour before the latter. A labourer on the farm has also been arrested on suspicion, as he received permission on Sunday to go into the town of Merlo for the day, but did not return till the following morning, saying that he had gone to Buenos Aires and been detained there. Another man, named Michael Ryan, employed on the farm, and who was seen twice at Figueroa's hut on Sunday, is also in custody.

On Monday Dr Figueroa, the District Surgeon, extracted the ball from the fatal wound, which was evidently made by a weapon of large calibre. The bullet had passed clean through the brain, and death must have been instantaneous. The bullet makes the evidence of Figueroa's guilt conclusive, as it is one of several given to him by Mr Beaumont with the revolver. There can scarcely be a doubt as to the foul crime having been perpetrated to satisfy Figueroa's craving for revenge on his victim for having supplanted him in his post.

The unfortunate gentleman's remains were brought to this city yesterday morning by train, and interred in the British Cemetery.

The Aconcagua's Mails.

London, Feb. 17th.

Earl Stanhope introduced a bill yesterday in the House of Lords for the purpose of prohibiting the payment of wages in public-houses. The Marquis of Salisbury made a personal explanation respecting statements attributed to him at the previous sitting by Earl Granville. A letter was read from Lord Alcester (Sir Beauchamp Seymour) in acknowledgement of the vote of thanks accorded him by their lordships last session for his services in connection with the Egyptian expedition.

In the House of Commons a new writ was issued for Newcastle, in consequence of the resignation of Mr. Ashton Dilke. The debate on the Address in reply to the Queen's Speech was continued, and eventually adjourned, an amendment by Mr. A. J. Balfour, condemnatory of the action of the Government in regard to Egypt, having been negatived by 179 votes to 144. Several Government and other bills were introduced, but the request of the Attorney-General for leave to bring in a bill to amend the Parliamentary Oaths Act led to a prolonged opposition.

M. Lepelletier, arrested in Paris on a charge of swindling, has, it appears, been in "trouble" once before for infringing the "Public Companies Act." He is a promoter of some eminence, and several well-known financial institutions owe their being to his initiative.

According to the *Osservatore Romano* of yesterday evening, the ecclesiastical authorities in the Italian capital hold aloof from the lectures in course of delivery there by Father Curci, the ex-Jesuit.

The Barbey Bill, adopted on Thursday by the Lower House, was yesterday submitted by the Minister of Justice to the Senate, and at once referred to a committee, which, within half-an-hour, reported to the Upper House in favour of the measure's absolute and total rejection. A debate on the bill will take place in the Senate to-day.

Bulgaria, although a province of the Ottoman Empire, declines to be represented by the Turkish delegate, and claims for her agent here the right to take part in the deliberations and transactions of that body. This extraordinary view of the Bulgarian Government was officially expounded to the Chamber of Deputies, at Sofia, yesterday, by Gospodin Stoiloff, Bulgarian "Minister for Foreign Affairs."

The infant son of the Duke and Duchess of Connaught was baptized at Windsor Castle yesterday, the Bishop of London officiating. The Queen and most of the members of the Royal Family were present.

Several fresh arrests are reported from Ireland. One is connected with the Dublin conspiracy—the prisoner being a man named Smith, who had been employed in the Board of Works in Castle-yard. The other is Mr Timothy Harrington, secretary of the Nat. League, who has been sentenced to two months' imprisonment for an inflammatory speech. Other members of the National League at Cork—including a town councillor—have been sent to prison for the use of intimidating language.

During a fire yesterday in an artisan's house at Radford, near Nottingham, five persons, including a mother and three children, were burned to death. It is said the husband escaped by a back door, and had he gone direct to the police-station the victims might have been rescued. The coroner's jury yesterday found that the deaths resulted from accidental burning, and that the fire had been caused by the improper construction of a flue.

On Wednesday the missing steamer Quebec was spoken by a passing steamer. She was then 120 miles southwest of Tuscar.

A motion was unanimously agreed to by the Metropolitan Board of Works yesterday, to request the Home Secretary to favour them as early as possible with a copy of the bill for the reform of the London Corporation. Some complaint was made that neither the Board nor any of the vestries had been consulted as to framing the bill.

John Goode, formerly an officer in the 10th Royal Hussars, has just died at Broadmoor Lunatic Asylum, where he had been confined since 1864. He was under the delusion that, as the son of George IV. and Queen Caroline, he was the real heir to the throne, and was arrested for using seditious language to the Queen.

In the case against the Guardians of St. Mary Abbott's, Kensington, in reference to the Small-pox Hospital at Notting-hill, the Guardians gave an undertaking in the Queen's Bench that the building would not be used except in case of great emergency, and this offer was accepted by the plaintiff as a settlement of the matter.

At the Mansion House, Henry Cattell, a news agent, has been committed for trial on a charge of selling a blasphemous publication called the *Freethinker*.

An increased amount of business was done in public securities yesterday, especially in Foreign bonds, which experienced an almost general rise. Egyptian, French, Italian, Spanish, and Turkish were in chief request. As regards Home railways, Great Western advanced, while Caledonian, Brighton "A," and North British declined. American and Canadian lines receded. Consols were ⅛ per cent. lower.

PARIS LETTER.

(From our own Correspondent.)

Feb. 6th

Floquet has proposed his bills to finish, once and for all, with the profession in France of pretenders; to enable the Government to defend itself like every other Government, and compel republicans to prove they are so. I have studied the deputies during the stormy debates on the expulsion bill, and I believe, that while the princes will not be banished "en bloc," they will be declared ineligible to hold any public office and be shown the frontier with the world all before them where to choose, if they make fools of themselves like Prince Napoleon. The Duc d'Aumale will thus become disqualified as candidate for President of France—the grand object in view. The dukes in the army and navy will be superannuated—"pour encourager les autres."

Will the army kick at this? Not in the least; it will obey, as it ever has done the decision of the legislature. Besides, the army as the reflex of the nation is republican, and will not forget discipline because a few princes, raised by favor to a high grade, are placed on the retired list and made French citizens conditionally. The nation displays no emotion on the subject one way or the other. But the exceptional legislation will not the less reflect on the Republic, while being a confession that it cannot exist without the old weapons of defence employed by kings and emperors and which it was its boast up to the present to discard.

The most polished, a veritable Academic speech, was by Comte de Mun, royalist and ultramontane; he delivered some hard knocks to the republic; he is about 33 years of age, slender, very black hair, and since his marriage looks prematurely old and care-worn; he has lost all the dash which made him so distinguished when he lectured on religious subjects in his uniform of cavalry officer. He speaks like all deputies with his coat closely buttoned up, and walks the tribune; a Frenchman could never speak "from his place." Fabre is the deputy who has modified Floquet's raw head and bloody bones' resolutions; he is a professor of philosophy, an avocation justified by his unkempt appearance; he has a squeaking, whistling voice that empties the house as it might forms. Ribot is an Orleano-republican, he is 45 years of age, tall, bony, and hatchet features; he is clever man; his speech was special pleading, neither fish, nor flesh, nor good red-herring. "Floquet himself" arrived in the tribune like a game cock, and at once pitched into the monarchists, much to the delight of the ultra-royalist Bishop Freppel who indulged immoderately in snuff, offering his box ten times within five minutes to his neighbor Paul de Cassagnac, who replied by holding out permanently his cigarette case as, "no thanks;" the Bishop's violet skull cap became often as cocked on one side as if worn by a Tommy Atkins, so amused was he at Floquet's solemn and heavy periods, suited more for the hustings than the legislature. He mixed up names, confused dates, and ever remained a monotonous roll of big phrases and few hits.

What dwarfs all these speakers—the best save Clemenceau in the Chamber, after Gambetta! President Brisson endeavours to quiet twenty members speaking at once, by a 'hush,' or a paternal uplifting of the hands, like the 'chef' of an orchestra. In such a situation Gambetta would ring the silvery big Ben at his side as if the building were on fire; strike the rostrum with his paper knife, shake his head at ten disturbers of the peace, and threaten a half dozen more with a fine and call to order.

As to change of Ministers, the more they change the more they remain the same; we are so accustomed to new Ministries that they cease to be a novelty, and as Göthe says, to pleasures oft repeated we become indifferent. Pity is rather felt for M. Grevy who is prevented from going to his bed as usual at ten o'clock, by having to sit up to receive combinations that topple over like Aunt Sallies—a political game, likely to become chronic and in which resides, and not in the conspiration of Princes, the real danger and the beginning of the end of the Republic. Taking advantage of his gout or parliamentary fluxion, his subordinates in the ministry voted their 'chef' Duclerc, out of the Cabinet. A militaire it is said will not be found to act as War Minister to sign the superannuation of the Princes. In 1848, when a holocaust was made of 38 royalist generals, and colonels &c, it was Arago the astronomer who acted as Minister of War.

The Anarchists' Sunday meetings are not at all lively, in the sense of revealing any new proposition for destroying society; ever the old means, dynamite, petroleum, gunpowder, poignards and fire arms. The Red Virgin, Louise Michel, has not brought a single new idea with her from London.

Jules Simon's new volume 'Dieu,' 'Patrie,' 'Liberte,' attracts even less attention than Renau's lecture on Judaism, proving that such is a religious and not at all an ethnographical expression. Simon is an able political rat; and his work is an apology for his tergiversations. Apart from this, the French are indifferent to the subjects.

We will have no Boeuf Gras procession this year either; instead, an Exhibition of Historical Portraits is talked of, and also one devoted to Potatoes and Canaries.

M. Richepiri's drama in five acts, 'La Glu' is a success; it is a little naughty, but not corrupt and obscene in the sense of Nana.

LORETO.

Buenos Aires, March 10th, 1883.

Mr. Michael Muldoon

Carmen de Areco.

My Dear Muldoon—I really have not time to reply to all your questions, but as you intend coming in on the 15th, I hope to be able to put your mind at rest in all points before the sale commences. With respect to the rise in value of estancia lands during the last thirty years, the following data will, I am sure, interest you. I have consulted the "registro" of only one "escribania," taking from same a sale each year, making it a rule to take the first one that turned up, and think it a fair indication of the business done all over the country. I give my own estimate of present value, taking care to be under the mark.

Hoping to see you early on the 15th, I remain your sincere friend

LATEST FROM BRAZIL.

The weather since our last has continued hot and moist, with the thermometer ranging at times over 90° Fahr. in the shade, and the cases of yellow fever show some increment when compared with the first three weeks of February, in which they averaged in the city about one per diem. In consequence, all emigrants are landed directly at the Ilha das Flores, and all Brazilian vessels, also, have been ordered into the middle of the bay.

The Minister of Empire having in view the fact that, except in the case of epidemics, consumption is the most fatal case in Rio de Janeiro, and has been progressive in its ravages during the last thirty years, has appointed a medical commission to study the matter and report within two years, experimentally investigating, in relation thereto, the problem of the inoculation of tubercles. Orders have been given to place at the disposal of the commission whatever means for study and investigation can be furnished by the Faculty of Medicine, the Polytechnic School and the Museum.

The call for tenders for the whole or part of the gas-lighting of Rio appeared upon February 24th, and in accordance with the bases stated in ours of that date. The tenders will be received until the 24th of August next in Rio, London, Paris, Berlin, Vienna, New York and Washington, if accompanied by a deposit of $50:000 in bonds of the Empire or an equivalent in cash. The contract or contracts will be subject to legislative approval, and the undertakers must pay the present company for the existing works in the districts contracted for. At the end of six years, after three years' notice and a public competition, gas may be superseded by electric or any other improved system of illumination, new contractors having to indemnify the superseded gas company or companies for the material inutilized in proportion to the unexpired part of their concessions. In all cases the material will revert to the State at the end of the respective privileges, without compensation. The amount of the compensation to the existing company, for its works, will be published in a short time.

In regard to the claims made by the present gas company in November last, the decision of His Majesty in Council has been that the company is entitled to be paid the value of the material in accordance with the valuation of 1878, together with the value of the works made afterwards, by order of the Government, while the annulled contract of 1879 was in force, and that of any combustible on hand whenever taken over, but that the payment of the material shall be in currency—not at par of gold—and all others are rejected.

Dr. Quesada, the new Argentine Minister, who is currently credited with instructions to press for a settlement of the Misiones Boundary Question, arrived here on the 1st.

Telegrams from Pernambuco announce that the Lamport and Holt steamer Copernicus went on the Ponta das Pedras, about twenty-five miles north of Pernambuco, but it was hoped to get her off after lightening her. No accident to life occurred.

Telegrams from Rome report the death on the 28th ult. of the distinguished Brazilian diplomat, Barao de Javary, accredited to the Italian Government.

PASTORAL AND AGRICULTURAL LAND IN SOUTH AMERICA.

Of all the South American States the Argentine Republic has of late years taken a decided lead in the development of its natural resources. And the large influx of population and capital that has taken place is due not merely to the greater stability of its Government and to the enterprise shown in the construction of railways connecting the interior with the shipping port, and so providing a market for stock and produce, but because the magnificent capabilities of the land for sheep farming and corn raising have become better known and appreciated within the last two years, and to judge from recent advices, we have every reason to believe it will soon become one of the largest grain producing countries in the world, the quality of the maize being now preferred in some of our provincial markets to that of the United States. Both soil and climate throughout vast tracts in the Santa Fé and Buenos Ayres provinces are pronounced equal, if not superior, to any in the world; and large numbers of settlers from Europe and the United States have recently taken up land there, and have cleared and stocked or cultivated it with the most encouraging results. Under these circumstances we have read with much interest an able report upon the Loreto Estate in the province of Santa Fé belonging to the South-American Land Company, 26, Austin Friars, E.C., because we observe that it is to be brought to the hammer in Buenos Ayres on the 15th March next, and so far as we can judge this will afford an opportunity that ought not to be missed by capitalists who are on the look out for a promising land investment; or by that large class of young men with some means at command who are seeking an opening in life where pleasant employment and a good return upon the outlay can be secured in combination. The estate consists of one hundred square leagues, or say 900 square miles of land, enough to swallow up several English counties, but it will be put up in small lots to suit the convenience of purchasers, and arrangements will be made by the vendors for spreading payment of the purchase-money over a series of years. The property is some 70 or 80 miles from the town of Pergamino, where there is a station of the Western Railway of Buenos Ayres, and it is still closer to the tract of country which will be traversed by the Transandine Railway now in course of construction. The report to which we have alluded is made by Don Cayetano Livi, a public surveyor, who seems to have made a very thorough examination of the entire estate, with the result that he is perfectly satisfied as to the depth and richness of the soil in every part and as to its suitability for all the best kinds of fodder, some of which, indeed, he found growing luxuriantly already, and for the growth of wheat and other grain crops. He is also satisfied upon another point of equal importance, viz., that the land is well watered throughout its entire length and breadth by lakes and streams that are never dry in the severest droughts with which the country is ever visited, whilst the climate is all that can be desired. On these points, however, we cannot do better than quote a few sentences from the report itself. The surveyor says;

"There is no sensible difference in quality between the lands in one part of your property and another. Both food and water is good everywhere, and consequently it is all equally fit for occupation.

"From the explanations I have given you, you will easily understand that the best way to turn this property to account would be to occupy it at once with sheep, by which means you would to a certainty obtain the same results as those given by the best lands in the department of Rosario and San Geronimo.

"The breeding of horned cattle would give an excellent result on the high lands, the quality of the grasses being excellent, and the land insured against drought by the permanency of the water-courses, and by the additional facility of being able to construct artificial drinking places in the low lands.

"There is no doubt the cultivation of wheat and lucerne would give first-class results in this region, for the quality of the soil is eminently suitable.

"In order to judge of the actual importance and value of your property, you must consider the advantages of its position. It is adjacent to the most fertile part of the province of Buenos Ayres. The present facilities of communication are great and must be further increased by the railways now in course of construction, which must pass through or near your lands."—*Investor's Guardian.*

EDITOR'S TABLE

What is the matter with the General Post Office? The Aconcagua's mails were not delivered till 1 p.m., although they came from Montevideo with the sun. We have to thank Messrs Dewey & Co., the popular newspaper agents, for late papers. The trials in Dublin still engross public attention all over the United Kingdom. Another big financial swindle has turned up in France. These things are always the certain forerunner of a bobbery "chez" our mercurial Gallic friends.

The poor little Irish Orphans are in luck. Mr and Mrs Williamson and Mr Thos Gahan donated $5,000 m/n to them and the Building Fund of their new home yesterday, for which we thank them in the little ones' name.

The Havas telegram announcing "Bread and Work" riots in Paris is considered an important straw borne on the fast rising political wind in France. The words themselves are ominous. The *Times* of 13th February has a remarkable letter from Paris on the "descensus Averni" of French diplomatic influence abroad under the Republic, whose Foreign Office is and has been for years in the hands of mere tyros in diplomacy.

Whoever wants an unfailing supply of water on his estancia should call at our office and see the cut of Mr. Younger's 'California' windmill pump. Instead of fooling over "pozos surgentos," these wind pumps are the thing to buy. They never stop, day or night, unless so desired.

The safes of the eminent firm of F. Schwarz & Co. constructed on the system of Bash of Glasgow, appear to be the fashionable receptacles for hard cash now. The Provincial Bank, the Mint, the Lottery, and the Provincial Contaduria have all given orders for them. If we had any cash to keep, we'd order one also.

We want our Gong back. We lent it, years ago, to some esteemed subscriber, and, if we could only remember his name, we'd sue him for damages for keeping it so long. Seeing this will perhaps induce him to keep it for ever. Let him! Conscience will make a coward of him some day, and then we'll call him out. In any case, we want a gong for our friends of the German Singing Academy, to be used at their grand concert on Monday night next, and shall feel obliged if any friend can lend us one for that musical occasion. We guarantee the Gong.

The great Loreto land auction will come off to-morrow. Mr Casey publishes an important advertizement in connection with it. See advertizing page.

The fire at Iquique is the most awful catastrophe of the kind since the conflagration in the church at Santiago twenty years ago. The loss is said to be three million pats, only one insured. Five lives were lost. There has also been a railway smash, near Concepcion, and 10 persons killed.

The papers per Aconcagua say that France is increasing her navy very rapidly. There are 46 new war ships now on the stocks, 14 of them ironclads. Who is she going to fight?

Here's a 'kettle of fish!' The War Minister has ordered another general enrolment of the National Guard all over the Republic, as many citizens have changed their residence since the last enrolment in January 1880.

No. 4224 won the 10,000 pats prize in yesterday's Lottery. Who had it? We hadn't.

Many parties here who have travelled in the tight little steamer Copernicus, of the Lamport and Holt line, will be sorry to hear that the popular agents, Messrs. Norton & Co., received telegrams yesterday from Rio, announcing that she is a total loss.

There has been a moral earthquake in the National College at Tucuman. The 'Profesorada' have resigned 'en masse,' after the fashion of French Cabinets. The cause of the row is the appointment of a new Rector, vice the venerable Joseph Posse, who was a great favourite.

The shield which the Argentine Government is about to present to General Osborn for his participation in the Treaty with Chile was the last painted by Gustave Doré before his death. This increases its money value enormously.

The rumours set afloat by a colleague about a probable revolution in Montevideo are pure nonsense. The only sensational news from the sister city is to look out for a startling 'novedad' in connection with the National Bank business down there.

Lamport and Holt will soon have a fleet as numerous as the Royal Navy. Their two new vessels—the Pleiades and Lamport—will be out here in May and June. They are 2,297 and 2,000 tons repectively.

The papers publish a queer story about the National College in Rosario. It appears that in that model establishment, there is a Professor for every two pupils! Something like the Venezuelan army—all officers and no soldiers.

"Not know Burns!" exclaimed a pervervid Scot on the night of the celebration of the poet's birthday. "Not know Burns, sir! Did you never read 'Scots wha hae wi Wallace bled?" he asked triumphantly. "No sir," replied the provoking Englishman; "I have never read local poets, especially when, as I learn from your quotation, they write in a foreign language.

The temperature yesterday was very pleasant, about 74 Fahrt., at midday. The morning "tub" had a pleasant foretaste of Autumn, which season will commence on the 21st.

There is a very fair Zarzuela company at the Alegria Theatre just now, and public amusements are so scarce at present that the little house is filled every night, and the empresario is making his 'Agosto,' in the month of March.

Our French friends are busy organising their annual St. Cloud fetes, the jolliest of all the charitable 'fiestas' of which there are so many in this city. French girls have an awfully 'taking' way about them, and receive five paper dollars with the same bewitching smile they bestow on $5,000 m/n. This is the secret of Bazaar success.

The old saw "fine words butter no parsnips" is now rendered "elegant diction oleomargarines no pastinaca edulis."

The mouthpiece of the telephone may be perfectly respectable, but there are a great many things said against it.

There was a crowd in Calle Florida on Monday night, opposite the Teatro Nacional, listening to the amateurs practising for the approaching concert of the Sociedad de Belgrano. We heard the grand chorus in 'Ernani' very fairly sung as we were passing by,

The change to cooler weather has had a marked effect on the small pox. Only two fresh cases reported yesterday. "A la bonne heure!"

A grand-daughter of Dickens is about to appear on the London boards. The debutante is extremely handsome.

The late Dr Manuel Montes de Oca left a fortune of about 1½ million paper dollars.

We have to thank Mr. Hugo Schmidt for a copy of his nice poetical volume, "Die Wassersnoth." We hear it very much praised by our German friends, and wish the talented author every success.

They are going in for elections in Entre Rios on April 1st. A most appropriate day for such a process in these regions.

A ventriloquist now goes about in the tramways, amusing himself by imitating the growl of a big or whine of a small dog under the seats. The lady passengers, and men also, jump up, call out to the "mayoral" to stop the car, and there is a general search under the seats, and the ventriloquist and a couple of friends with him appear the most alarmed of all, while in reality choking with, suppressed laughter. It's not bad fun, though hardly fair.

THE BOCA FOR EVER!

B. Aires, 20th Feby. 1883.

To Capt. R Rowley Neill
Commander of S.S. "Kovno"
Riachuelo

Dear Sir,

Being desirous of availing of the advantages offered by the Port of Riachuelo, to Captains and owners of ocean vessels, for the discharge of railway materials, I will esteem it a favour if you kindly inform me, whether, in your opinion, the Riachuelo offers such advantages, and is a safe port; stating the depth of water you found in the channel when entering the S.S. Kovno, and the depth at your present berth of discharge.

Your reply, at your earliest convenience, will oblige.

Yours obediently
John E Clark.

S.S. "Kovno"
B. Aires, Feby. 22nd 1883
J E Clark Esq.

Dear Sir,

My opinion of the harbour of Riachuelo is that it is a perfectly safe Port and easy of access for steamers up to two thousand tons burden, providing they do not draw more than sixteen feet and a half water, ordinary tides; as, when proceeding into the harbour with the S.S. "Kovno" on the 14th inst., with two thousand tons cargo and coals on board, drawing sixteen feet four inches, the least water we found with the lead was seventeen feet, eighteen and nineteen being in most places, and twenty feet between the piers where the vessel stopped to discharge.

I would advise Captains bound to Riachuelo to arrange to be at the port as near high water as possible, so that their vessel may not be affected by any current passing the ends of the stone piers.

Any Captain who has navigated his steamer through the Suez Canal or other narrow rivers need nor would not hesitate to enter "Riachuelo harbour", as even should his vessel touch the bank slightly, the bottom is so soft, she would not receive any injury; as a precaution a good tug should be in attendance.

I am, Sir,
Yours obedtly.
(Signed)
R Rowley Neill.

Ayer's Hair Vigour

(A DESIDERATUM)

For restoring the Natural Vitality and Colour of the Hair.

Prepared according to scientific and physiological bases with the object of bettering the condition of the hair, it stimulates the enfeebled glands of the scalp into healthy action, arrests the falling of the hair and promotes its luxuriant growth; rendering it soft, youthful and glossy.

This excellent preparation, the best and without doubt the only one as a remedial agent for the many defects and diseases to which the hair is subject, calls for and merits the most serious attention of all those who have had the misfortune to lose partially this most beautiful and natural ornament. **AYER'S HAIR VIGOUR** employed intelligently has obtained really surprising results. Faded or grey hair it restores to its original colour: and lost hair is often, but not always, reproduced.

It has always **PREVENTED FALLING** of the hair: whilst as a dressing ladies say it is the most agreeable as it is the most beneficent. Containing neither dye nor oil, it does not soil the finest cambric.

The Rev. Mr. Smith

Testimonial Fund.

At the General Meeting of St. Andrew's Presbyterian Church, Buenos Ayres, held on the 31st January, 1883, attention was called to the near approach of the time when the Rev. James Smith's official connection with the Church and people of Buenos Ayres would cease. The propriety of some manifestation being made by the Community on this occasion, to mark its appreciation of a life's work, having been mooted and unanimously recognised, it was resolved that such manifestation should assume the form of a pecuniary gift to the Rev. Gentleman, and a Committee was at the same time nominated with the view of carrying such resolution into effect.

In pursuance of this resolution, the Committee beg to inform the Community who sympathise with them in the matter, that Subscription Lists for signature will be found at the undermentioned places.

Other Lists will be forwarded to some of the outlying districts of Buenos Ayres and the Oriental Republic. Members residing at a distance, desirous of taking part in this manifestation, and who may not have access to any of these List-sheets, can obtain them upon application to the Honorary Secretary, David Methven jun., Calle Reconquista 89, who will also be ready to receive any particular subscription towards the same object up to March 15th, prox.

PROTESTA

Sobre la venta de los terrenos de "LORETO"

Buenos Aires, Marzo 10 de 1883.

Sr. Juez de 1ª Instancia.

Dn. Bernardo Yturraspe apoderado del Dr. Dn Bernardo de Irigoyen, Dn. Inocencio Vasquez, Dn. Lucrecio Vasquez, Dn. Carlos Chapeaurouge y de todos los demas sucesores de Dn. Miguel Arrascaete, frecino de Cordoba, segun lo acreditan las actuaciones judiciales que en 14 fojas utiles acompaño, constituyendo mi domicilio en la Calle de Suipacha No. 140 ante V. S. como mejor corresponda digo:—

Que segun consta en dichos testimonios y en escrituras que existen depositadas en la escribanía de Dn. Victoriano Cabral para entender algunas de enafenacion, mis representados son propietarios de 287 leguas, que en 1757 el Gobierno Colonial tranferio a Don Miguel de Arroscaeta dentro de los limites de la Provincia de Cordoba teniendo la propiedad la estencion y limites que en las escrituras se refieren.

Despues del fallecimiento de Arrascaeta la propiedad paso a sus descendientes, los que han poseido pro indiviso y tranquilmente los terrenos de la Merced Arrascaeta en toda su estencion.

En 1874 hicimes medir nuestra propiedad ante las autoridades de Cordoba las que aprobaron en forma la operacion sin que contra ella se suscitase protesta ni oposicion, ni de las autoridades de Santa Fe, ni de persona alguna.

De esa mensura resulto que la area de la Merced Arrascaeta es de 287 leguas 1515 cuadras y 6262½ varas cuadradas cuyo dominio ha sido siempre respectado, y conservando algunos de los herederos la posesion tranquila de esos terrenrs.

Promovios hace algun tiempo una cuestion de limites entre Cordoba y Santa Fe como las que han existido y existen entre otras provincias (Cordoba y San Luis, Catamarca y Santiago, Mendoza y San Luis.) Los Gobiernos de Cordoba y Santa Fe sometieran la controversia al arbitrage de la Corte Suprema y esta en su caracter de Tribunal arbitral fallo trazando una linea divisoria que a su juicio acorsejaba la equidad.

Pero en prevision de que esa linea afectase propiedades particulares adjudicandolas a una jurisdiccion provincial diferente a la que antes tenian; las provincias comprimentes salvaron anticipadamente esa dificultad estableciendo la siguiente en el art. 6, de pacto de compromiso arbitral:—

"Art. 6—El fallo del Tribunal arbitral sobre los limites juridiccionales de las provincias contratantes, no alterara en ningun caso los derechos de los particulares, subsistentes en la fech de este convenio, siempre que hayan sido legitimamente adquiridos."

Pronunciable el fallo de la Corte Dn Jaime Arrufé tomo el mapa en que esta trazado la nueva linea y sin mas antecedentes y sin investigar si los terrenos adheridos a la jurisdiccion de Santa Fe son o no de propiedad particular, los solicito en compra. El Gobierno de Santa Fe se los concedes sin cuidarse de hacer saber la venta que se le proponia, lo que era requerido para que los que tuviesamos derechos sobre ellas, lo dedujesen. Y el Señor Arrufé con el titulo otorgado por Santa Fé, lo transfirio a Dn. Eduardo Casey represen tante de una sociedad ano ima, y como consta del aviso publicado en los diarios que acompaño, se propone ahora venderlas en remate publico el dia 15 del corriente.

El procedimiento no puede ser mas irregular. El Gobierno de Cordoba, aun no ha manifestado su conformidad con el fallo de Corte y esa cuestion puede ser llevada al H. Congreso a quien corresponde por la Constitution fijar los limites de las provincias.

Suponiendo firme el fallo de la Corte, se adherira, con arreglo a el, a Santa Fe, el territorio que le señala aquella resolution, tendra Santa Fe la jurisdiccion en esa parte, pero la propiedad permanecera en los que la tienen desde el siglo pasado. En lo legal y lo convenido espresamente en el pacto interprovincial a que he hecho referencia.

La venta en Santa Fe no se ha hecho en remate publico, no se ha publicado la propuesta del Sr Arrufé y no hemos tenido, por consiguente, oportunidad en hacer valer ante aquel Gobierno, nuestros derechos, que no dudamos habrian sido reconocidos.

Hoy se anuncia que esos terrenos pasaran a Santa Fe por el Sr Arrufé y vendidos a los pocos dias a Casey para una sociedad anonima, son los que se ponen en remate publico, y como esa Sociedad puede liquidarse en el momento que quieran sus socios y desaparecer sin dejar ninguna responsabilidad efectiva, venimos, pues, a oponernos a la venta anunciada por los rematadores A Bullrich y Cia, porque se pretende incluir en ella 62 leguas de nuestra propiedad que son las marcadas con tinta en el plano cpartido por los vendedores y que acompañamos.

Protestamos contra esa venta que puede perjudicar a terceros que ignorando los antecedentes espresados compra un parte de losterrenos ofrecidos, y pedimos a V. S. se digne disponer se notifique esta protesta a D. Eduardo Casey, y á los rematadores A Bullrich y Cia. encargados de la venta, la que declaramos que no reconocemos ni acto alguno que amengue nuestros derechos de propiedad y que demandaremos la nulidad y los daños y perjuicios que se nos ocacione.

Si el Sr Casey al notificarle el contenido de este escrito no acepta la idea que proponemos de aplazar la venta hasta que se aclare este asunto, daremos publicidad a esta protesta para evitar perjuicios a terceros que procedan de buena fe.

Pedimos por consecuencia a V. S. que esta protesta sea notificada al Sr. E. Casey, Calle de Reconquista No. 80, y a los rematadores A Bullrich y Cia, a efecto de que los compradores no puedan alegar ignorancia de ello.

BERNARDO ITURRASPE

B. Aires, Marzo 13 de 1883

Por presentado en cuanto haya lugar, y por constituido el domicilio, hogase saber la protesta formulada haciendose entregade las copias; a los efectos del art. 31 del Codigo de procedimientos señalarse los dias Martes y Viernes o habiles siguientes.

March 13th, 1883

Patacon	25.01
Cedulas A	100½
Cedulas E	85½
National Bank Shares	110
Municipal Bonds 6 o/o	84½
Hard Dollars	88

The weak tendency of National Bank Shares this morning was a bitter deception to those who had anticipated a heavy rise on the strength of the success of the loan business on the Government Bonds held by the Bank. Operators had anticipated a much heavier rise but the slight impulse given to the market last night was of no avail, as several holders weakened the market by selling at the present rates. Towards the close of official hours a firmer feeling set in and a reaction began to be felt in the stock when prices touched 105½; but there is no definite aspect in the speculation, in spite of the favorable settlement of the loan business and of the favorable prospects of the Bank under the circumstances. Several million patacons will flow to the vaults of the Bank and give its operations a gigantic impulse both here and in the Interior. The Bank has the country and the Government at its back, but these advantages suffice not to place its shares on a par with the quotations of those of our leading private banks.

Only 20 shares changed hands for cash at 110; operations for the end of the month embraced 1,450 shares; the market opened at 106, but began to fall immediately after touching 106½, dropping gradually to 105½ and closing firmer at 105¾. Operations for the end of April comprised 850 shares; the market opened at 107½ and closed at 107.

A few thousand Hard Dollar Bonds were sold this morning at 88; several sales have been effected privately at this rate, which shews a rise of 4 o/o compared with last quotations marked on the board. Ten thousand Municipal 6 o/o were also sold at 84½ for the end of the month; these bonds are being thrown on the market as fast as they are issued.

Close on 200,000 Cedulas were sold during official hours. Thirty five thousand Series A changed hands for cash at 100½, and about 60,000 E at 85½; there are many sellers and buyers at this rate for cash. Operations for the end of the month embraced 35,000 E at 85¾, and 55,000 for the end of April at 86. The stock closes firm at the closing rates of official hours; the stock is more offered for cash and for the end of the month than usual.

The gold market ruled excessively dull today, and no operations were reported. There are buyers at 25.01. There is nothing doing in exchange; no steamer till the 17th inst., St. Patrick's day. Discounts shew no change, more or less difficult, and rates unaltered.

The Spanish steamer Fivaller of the Transporte Maritimo line of Barcelona arrived in port to-day with 1,800 pipes of Spanish wine and several passengers.

Freights are very firm, and there is plenty of cargo offering for French ports. Sailing vessels continue in steady demand up rivers. The market is throwing off its dull features, and there is much activity in cereals and wool.

In another column we publish Mr. Latzina's figures on the trade of the country during 1882. They shew the steady progress of the R. Plate and the great development of the producing and consuming markets.

Mr. Lugones's letters on the South, which are appearing in the columns of the *Nacion* have attracted the attention of all; they give an accurate idea of what is going on in Bahia Blanca and are read with the greatest interest. Mr. Lugones states that Englishmen are the head men in Bahia Blanca. A steamer leaves the Boca to-morrow for that port crowded with passengers. Mr. Mendez of this market leaves in her for a short trip.

Mr. Coaker was welcomed to-day on his arrival from Entre Rios.

The sales at the ring were as follows:—

Cedulas—
For cash A 35,000 at 100½
For cash E 59,550 at 85½

The loss of the fine Lamport & Holt steamer Copernicus is confirmed; she is considered a total loss.

The new Treasury Bonds of the Montevidean Government have been launched on the Bolsa of the sister city; they are quoted at 51.

The Lamport & Holt line is to be increased by two new steamers of 2,000 tons each, suitable for the Rosario service. The progress of this great line is the reflection of the advance of the country. The two new steamers will be called Pleyades and Lamport.

Sixteen squares of land have been sold in Lomas de Zamora for $130,000 m/c; the upset price of the auction was $54,000 m/c.

The wool markets ruled excessively dull this morning. In the Plaza Once only 3,000 @ were sold, mainly lambs' wool. A fine lot of Acebalo wool from Lobos and another from Mr. Clancy's estancia in Pergamino arrived, but were not sold. The market is at a complete stand-still, but the main features, that have characterized the season, are maintained. Good wools continue in demand and bad wools are neglected.

We hear of three charters effected in port to load tallow and hides.

Another leading barraquero of the Plaza Constitucion intends withdrawing from the barraca business. Several barracas have been closed in the South since the beginning of the year.

Advices from the Southern districts state that it has r

El Jueves 15 de Marzo

A las 2 p.m.

Remataremos a la mas alta postura y sin limitacion de ninguna clase, los mas afamados campos de la Provincia de Santa Fe conocidos por Loreto distantes unicamente 25 leguas de Pergamino, 3 de la colonia Iriondo, 10 de la colonia Alvear (La Teodolina) 13 de la Estacion Torinigas del Ferro Carril Central Argentino, 16 de la Cañada de Gomez, Estacion del mismo Ferro Carril y entre el Ferro Carrilde citado y el proyectado canal del F. C. de S. Cruz el Pergamino al Rio 4° y el Oeste Sanafesino. Estos campos lindan con los famosos y conocidos del Venado Tuerto y con estancias, como las de los Sres Ostendorp y Cia, Diego Alvear, sucesion de Armstrong y otros.

Los campos que ofrecemos vender el Gobierno de la Provincia a $90,000 m/c en mas distantes de la Capital que estos que ofrecemos en venta.

Ademas con la rapidez que se estan construyendo los Ferro Carriles y ramales en la Republica demuestran claramente que en un corto tiempo la poblacion va a estenderse extraordinariamente y entonces toda la propiedad rural tiene que triplicar en valor, de manera que cuando llegue a vencerse el ultimo plazo el comprador se encontrara con una propiedad valiosa.

La calidad del campo se garante igual al Venado Tuerto por lo tanto creemos inutil entrar en mayores descripciones sobre el terreno, sus pastos etc, ademas la persona que quiera ver y examinarlos puede toma la Galera que va del Pergamino al Hinojo ocurriendo por la pasage gratis al Sr. D. Eduardo Casey Reconquista num. 80.

El campo sera dividido en lotes de 1 (media) legua teniendo el comprador el derecho de tomar cuatro leguas por el mismo precio.

Todos los lotes seran vendidos sin reserva le ninguna clase al mas alto postor y el pago se hara una cuarta parte al contado y el resto en cuatro anualidades con el 7 o/o de interes. NOTA—No olvidarse que el remate se efectuara aqui en la Capital Calle Alsina 78.

To Sheep and Cattle Breeders of small Capital.

Towards the end of last year, we advertized 112 lots of half a league each, or say 800 squares of camp for sale at Gainza, to the West of Lincoln, payable $12,500 cash down, and $14,062 in yearly payments for eight years, without any interest. The last payment coming due on the year 1891.

We then described the pastures of these Gainza camps, as being different to those found generally an Virgin Camps. Instead of the hard grasses usually found, we have here a species of gramilla, suitable at once for sheep in prudent quantities, which covers two-thirds of the surface.

We invited small sheepowners to go out and judge for themselves. We invited them to inspect the prosperous condition of the sheep on the camp at the estancia house at Gainza. The occupations of shearing and deposit of wools joined to the hot season prevented as full a response to our appeal as we would have wished. Nevertheless several camp friends went out to see the land, and strange to say every man who went took lots, some of half a League, and some up to two leagues.

The railroad to Valparaiso passes through the property, and the basis of a colony is already established. Ranchos and corrales will spring up immediately, and a man living on his own land will bring in the aid of the plough to produce abundance around him.

We have still various lots for sale, and we conscientiously advise our camp friends to go out and look at these Gainza lands, with the conviction that once seen, and as has occurred up to this time, each man will be desirous of securing lots according to his means.

On the 1st, 11th and 21st of each month the train from the South will conduct parties interested, direct to Gainza viâ Lincoln, in galera. At the estancia house in Gainza peons are in attendance to show these lands to purchasers.
